

Earlier this year, Trillium Health Partners (THP) and Infrastructure Ontario (IO) awarded a contract to ED+PCL Healthcare Partners. Following this milestone, the Trillium ED/PCL JV partnership began executing the Enabling Works in the Spring of 2024. This phase of the Development Phase Agreement prepares the site for the construction of The Peter Gilgan Mississauga Hospital.

Over the coming weeks and months, the Mississauga Hospital campus will see a number of enabling works activities.

- Construction hoarding has been installed to provide safety and security during the construction.
- Demolition of the Clinical Administration (CA) Building and Camilla Care Community began in Spring 2024 and is expected to be complete in Winter 2024.
 - As both buildings are located on the future site of The Peter Gilgan Mississauga Hospital, it is necessary to tear them down to allow for the construction of the new hospital.
 - The new hospital has been designed to occupy the location of the current home of Camilla Care and the CA Building as building along Hurontario allows for a more efficiently designed building, ensures it can be done in one phase, shortens the construction schedule, and reduces impact on the ongoing operations during construction.
 - Impact of the demolition will be minimal to hospital operations, as the activities will be contained within fenced construction areas.
 - The demolition will be a controlled dismantling of the buildings to ensure proper recycling, waste diversion and dust control.
 - Safety measures will be in place throughout the demolition process to ensure the well-being of everyone on site.
- The new parking garage is anticipated to open in Winter 2024/2025
 - Total parking spots will remain consistent with availability today until the new hospital is complete.
 - The existing parking garage will be demolished once the new one opens.
 - While all the enabling works will be delivered by ED/PCL JV, the parking garage will be delivered by Kenaidan Contracting.

Contact

These construction activities, supporting the future home of The Peter Gilgan Mississauga Hospital are part of a multi-year plan. THP aims to provide accessible communication regarding construction activities, however, due to the – at times – unpredictable nature of construction projects it can be challenging to get communications out in an ideal timeframe. We will continue to do our best to provide as much information as early as possible; and we appreciate your understanding and patience.

For more information, please visit trilliumhealthworks.ca or if you have questions about construction-related activities, please contact ask@thp.ca.
