Subject: Speakman Drive Long-Term Care – Urgent work required on-site tomorrow (July 1, 2022)

Dear residents,

The purpose of this notice is to let you know about some emergency work that must take place tomorrow at the Speakman long-term care home site. One of the main distribution panels on site failed this afternoon and must be replaced as soon as possible. This panel is part of the infrastructure that powers important equipment on site. The new panel will be delivered to the site this evening, and installed tomorrow morning, beginning at 7am.

This work is expected to generate minimal to zero noise for the surrounding neighbourhood, but we wanted you to be aware that the work is taking place. We understand that this work will take place on a holiday, which is outside of the intended hours of operation. The team will make every effort to ensure minimal impact on the neighbours. The work is estimated to take less than eight hours.

Thank you for your cooperation.

Questions?

As always, please send your questions and comments to public.affairs@thp.ca. If you have real-time concerns about an on-site issue, please call 416-594-2196. This is a monitored line with after-hours contact information.

Sincerely,

- Trillium Health Partners
