

Possible construction activity on Saturdays

While the majority of construction work for the two long-term care homes on Speakman Drive is scheduled to take place during the day between 7am-7pm, Monday to Friday, there will be some instances where work needs to be done outside of this timeframe. In order to stay on schedule for this project, construction activities may also take place on Saturdays, beginning February 20.

Work that may take place on Saturdays includes, but is not limited to: drilling, excavation, foundation work and installing new site services. This work may generate noise, vibration and some dust. Thank you for your patience and understanding, and we apologize for any inconvenience this may cause.
