Subject: Speakman Drive Long-Term Care Homes – Concrete Pouring

Dear residents,

In follow-up to the notice sent on August 27, 2021 the purpose of this letter is to update you on the upcoming concrete pours, as part of the construction work for the Speakman Drive long-term care homes.

Concrete Pours

Similar to previous concrete pours, there will be four pours taking place over the next month. The first concrete pour is estimated to take place on **Thursday, September 16, 2021**. The second and third concrete pour are estimated to take place in the following two weeks (second during the **week of September 20, 2021** and the third during the **week of September 27, 2021**). The final pour in this series is estimated to take place the **week of October 4, 2021**.

As a reminder, due to the nature of this work, a portion of this construction will take place outside of regular working hours (estimated to begin at 7am and conclude at 4 am the following morning). In comparison to the previous pours, the majority of these pours will be located closest to the road and away from the residential neighbourhood. However, the team will continue to work hard to ensure strategies are in place to minimize any impact on neighbours, especially as this work approaches the evening/early morning hours. Timing can also vary based upon temperature, humidity and wind.

Questions?

As always, we welcome all of your questions and comments, and are committed to working together. We will continue to share information with you as it becomes available. All information and updates will be shared via email, so if you have any neighbours who have not signed up for our mailing list yet, please let them know to contact us public.affairs@thp.ca. If you have real-time concerns about an on-site issue, please call 416-594-2196. This is a monitored line with after-hours contact information.

Sincerely,

Trillium Health Partners
