Subject: Speakman Drive Long-Term Care Homes – Concrete Pours Summer 2002 (Update)

Dear residents.

We wanted to provide an update on the concrete pours taking place at the Speakman Drive long-term care property over the next several weeks. In April we provided notice that the next round of concrete pours were taking place from April until the end of July 2022. Due to periods of inclement weather, the pours will now be completed in mid-August.

This round of concrete pours that began in late April is happening in stages, on levels three up to the roof of both buildings. The pours are scheduled for twice per week until the end of July, and then once per week for the first two weeks of August. This timing may need to be extended depending on any inclement weather or labour disruptions.

As a reminder, due to the nature of this work, the concrete pours must be completed as a continuous operation, which can take up to 24 hours in total. The team at EllisDon begins the work at 7am, in a continuous sequence of steps. The concrete pour is completed and then all mechanical equipment, concrete delivery trucks and pump trucks leave the site by 7pm. The curing and finishing work continues and is completed by approximately 4am.

EllisDon will continue to make every effort to minimize the impact to neighbours. All lights will be directed away from residential homes. There may be minor noise from light towers and finishing equipment. These concrete pours do not require cutting, which will reduce the noise impact.

Questions?

As always, we welcome your questions and comments, and are committed to working together. We will continue to share information as it becomes available. All information and updates will be shared via email, so if you have any neighbours who have not signed up for our mailing list, they can contact us at public.affairs@thp.ca. If you have real-time questions about an on-site issue, please call 416-594-2196. This is a monitored line with after-hours contact information.

Sincerely,

- Trillium Health Partners
